

Educate. Train. Develop.

OUR MISSION

Educate, train, and develop students at Historically Black Colleges and Universities (HBCUs) for successful careers in Science, Technology, and Math (STEM).

ANNUAL LABORATORY COAT DRIVE | WAYS TO SUPPORT

BECOME A SUPPORTER and empower the next generation of STEM professionals!

By supporting this annual event, you'll help students at Historically Black Colleges and Universities (HBCUs) alleviate the cost of laboratory material(s) required for their core science classes throughout their college career.

So far, we have gifted 4 HBCU students laboratory coats. This year, we will be partnering with the North Carolina Central University College of Health and Sciences to target more students, and we need your help!

Choose the ways you'd like to support our efforts below!

SPONSORSHIP OPPORTUNITIES

Gold (\$1500)

Same as Silver and Bronze

*Special gift from the organization
